1. By the end of May 1950, 200 Chinese of the Mukden Railway Administration had been replaced by Soviets. Russian girls are employed as railway ticket collectors. The highest pay received by the Chinese Communist staff is 10 million in Northeast People's Currency (NEPC) per month, while a Russian ticket collector receives between 24 and 30 million NEPC.\*

All senior personnel of the Hsiaofengman hydro-electric plant are Soviets, except for some technicians who were formerly prisoners of war of the USSR.\*\*\* In return for machinery "donated" by the USSR, the Chinese Communists have "requested" that the power station be operated under joint Sino-Soviet supervision for ten years.
